OZZIO® ITALIA

MILANO CAPITAL OF DESIGN

La storia di Ozzio Italia inizia nel 1961 nella culla di molte eccellenze dell'italian design: il distretto della brianza a nord di milano. Nel primo laboratorio artigiano della famiglia Pozzoli si coltiva la qualità: con questa filosofia e un forte legame con il proprio territorio, l'azienda cresce fino a diventare oggi un brand internazionale, presente con i suoi prodotti in 5 continenti. La collezione Ozzio è contraddistinta da una particolare interpretazione della vita contemporanea, frutto di una visione in grado di raccogliere ispirazioni da tutto il mondo e trasformarle in proposte dall'inconfondibile stile italiano.

The history of Ozzio Italia started in 1961, in the cradle of many italian design excellences: the Brianza district, located north of Milano. In the first artisan workshop of the Pozzoli Family, quality was the first value: with this philosophy and a strong bond with its homeland, the company grows until becoming, today, an international brand, currently available throughout five continents. The Ozzio collection is characterised by a particular interpretation of contemporary lifestyle, fruit of a vision that gathers inspiration from the whole world and transforms it in unmistakably italian design propositions.

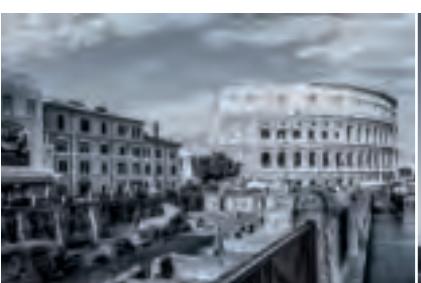

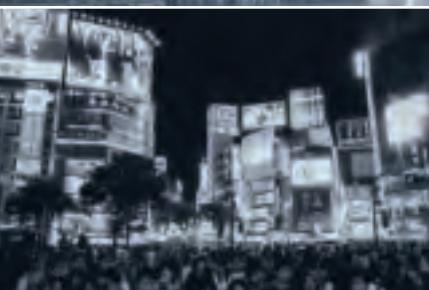

WORLD NETWORK

Ozzio ha posto le basi del proprio sales network internazionale a partire dagli anni 90. Oggi l'azienda è una realtà di riferimento nell'ambito dell'arredamento multi-funzione, con una consolidata presenza in Europa, America, Asia e Russia confermata da ben 10 showroom istituzionali nelle più importanti città del mondo.

Ozzio laid its international sales network bases starting from the 90s. Today, the company is a reference reality in multi-functional furniture field, with a consolidated turnout in europe, america, asia and russia, confirmed by the presence in the best showrooms in the most important cities of the world.

Dare risposte nuove agli stili e alle esigenze dell'abitare significa innanzitutto creare metodi per produrre ciò che prima non esisteva. Significa tradurre l'idea di un movimento in una realtà meccanica semplice e affidabile nel tempo. Significa creare i singoli componenti che rendono possibili le sorprendenti trasformazioni dei tavoli. Significa anche portare nel futuro una conoscenza antica di materiali come il legno e il metallo. Le proposte Ozzio Italia sono così innovative che anche i metodi di produzione sono unici: un know-how esclusivo in cui la tecnologia dialoga con le radici di un laboratorio artigiano. Due aspetti che fanno parte della realtà quotidiana di tutti gli addetti altamente specializzati di Ozzio Italia, che curano con le proprie mani ogni dettaglio della collezione.

Giving new answer to the styles and needs of modern dwelling means, first of all, to create new ways of making what did not exist. It means to translate the idea of a movement in a mechanical reality, simple and reliable over time. It means to create the single components to make the amazing table transformations possible. It also means to bring along to the future an antique knowledge on materials like wood and metal. The Ozzio Italia propositions are so innovative that also the production methods are unique: an exclusive knowhow where technology empathizes with the roots of an artisan workshop. Two aspects, both part of every highly skilled workers at Ozzio Italia, handcrafting every detail of the collection.

OZZIO[®] ITALIA

La continua collaborazione con designer italiani e di tutto il mondo è fondamentale per l'idea alla base della filosofia Ozzio Italia: rivoluzionare l'abitare moderno, definito da spazi sempre più ridotti, creando mobili trasformabili, polifunzionali, con diverse destinazioni d'uso. Una vera partnership creativa iniziata nel 2005 e che si arricchisce di incontri, progetti, innovazioni sorprendenti.

The continuous collaboration with italian and worldwide designers is fundamental for the idea at the root of Ozzio Italia philosophy: to reinvent the modern living, defined by ever shrinking spaces, creating transformable and multifunctional pieces of furniture, with multiple intended uses. A real creative partnership started in 2005 that enriches, year by year, of encounters, project, surprising innovations.

CONTEMPORARY HOME

La Casa Ozzio Italia... è spazio amico. Uno spazio mobile... viene da pensare guardando i prodotti. Il concept creativo - e la stessa reason why - esprimono prodotti polifunzionali che sanno dare risposte concrete alla cronica mancanza di spazio che caratterizza il vivere contemporaneo. Nei prodotti Ozzio per l'interior design non cambia solo la forma, quindi la percezione del prodotto, ma anche la sua destinazione d'uso. Succede che un tavolo diventa una consolle, una sedia si ripiega e "sparisce", un tavolino basso diventa un tavolo di grandi prestazioni, un porta tv segue il tuo sguardo... benvenuti in una nuova dimensione, dove tutto è possibile.

Ozzio Italia Home is... friendly space. Space is moving... this is what could cross your mind while looking at Ozzio Italia products. The creative concept - and the reason why too - are the expression of multifunctional products that really give concrete answers to the steady lack of space, typical of contemporary living. In Ozzio items for interior design, not only the shape and the product's perception are changing, but their function changes as well. It happens for example that a table turns into a console, a folding chair simply "disappear" from your sight, a coffee-table turns into a performing versatile table, a TV-rack follows your look... Welcome to a new dimension, where everything is possible.

LIQUID BIG

Design: Giulio Manzoni

Liquid Big, più che un tavolo è un autentico pezzo scultura dal carattere innovativo che il suo piano trasparente rivela in tutta la sua bellezza. Una forma organica e fluente ricorda una scultura astratta dal disegno levigato e compatto. Proposto verniciato o laccato opaco nei colori a campionario.

Liquid Big, more than a table. It's an authentic piece of sculpture of innovative personality that the crystal transparent top reveals in all of its beauty. An organic and fluent shape, a sculpture of smooth and compact design. It is proposed in a variety of lacquered finishes.

L'innovativo tavolo 4x4 dispone di un sistema di apertura esclusivo. Il prodotto muta nella forma e nell'aspetto visivo perché le allunghe, portate in primo piano, incrociano perpendicolarmente la vena del legno creando un raffinato motivo decorativo.

The new table 4x4 presents an exclusive opening system. The product changes in its shape and its outlook because of the extensions that, once open, cross the veins of top and give an elegant leitmotif.

BRAVO

Design: Studio Ozeta

Ispirato alle linee essenziali tracciate da noti designer, il tavolo Bravo presenta un disegno fluente e raccordato. Un progetto ergonomico che si presta all'accostamento di sedie avvolgenti in morbida pelle naturale.

Inspired by the essential lines drawn by famous designers, the Bravo table is flexuous and filleted. An ergonomic project very likely to be paired with enfolding natural leather chairs.

ECLIPSE LEGNO

Design: Studio Ozeta

A far vivere questi prodotti per l'area pranzo sono due valenze fondamentali. Il design funzionale degli elementi e le preziose finiture proposte come le essenze materiche associate al laccato lucido.

Two important aspects give value to these products for the living area. The functional design of the elements and the precious finishing like for example the material essences associated to the shiny lacquer surface.

WHERE ARCHITECTS LIVE

La Casa Ozzio Italia... è spazio amico. Uno spazio mobile... viene da pensare guardando i prodotti. Il concept creativo - e la stessa reason why - esprimono prodotti polifunzionali che sanno dare risposte concrete alla cronica mancanza di spazio che caratterizza il vivere contemporaneo. Nei prodotti ozzio per l'interior design non cambia solo la forma, quindi la percezione del prodotto, ma anche la sua destinazione d'uso. Succede che un tavolo diventa una consolle, una sedia si ripiega e "sparisce", un tavolino basso diventa un tavolo di grandi prestazioni, un porta tv segue il tuo sguardo... benvenuti in una nuova dimensione, dove tutto è possibile.

Ozzio Italia Home is... friendly space. Space is moving... this is what could cross your mind while looking at Ozzio Italia products. The creative concept - and the reason why - too - are the expression of multifunctional products that really give concrete answers to the steady lack of space, typical of contemporary living. In Ozzio items for interior design, not only the shape and the product's perception are changing, but their function changes as well. It happens for example that a table turns into a console, a folding chair simply "disappear" from your sight, a coffee-table turns into a performing versatile table, a TV-rack follows your look... Welcome to a new dimension, where everything is possible.

CITY LIFE STYLE

OZZIO® ITALIA

Ozzio Italia Home is... friendly space. Space is moving... this is what could cross your mind while looking at Ozzio Italia products. The creative concept - and the reason why too - are the expression of multifunctional products that really give concrete answers to the steady lack of space, typical of contemporary living. In Ozzio items for interior design, not only the shape and the product's perception are changing, but their function changes as well. It happens for example that a table turns into a console, a folding chair simply "disappear" from your sight, a coffee-table turns into a performing versatile table, a TV-rack follows your look... Welcome to a new dimension, where everything is possible.

La Casa Ozzio Italia... è spazio amico. Uno spazio mobile... viene da pensare guardando i prodotti. Il concept creativo - e la stessa reason why - esprimono prodotti polifunzionali che sanno dare risposte concrete alla cronica mancanza di spazio che caratterizza il vivere contemporaneo. Nei prodotti ozzio per l'interior design non cambia solo la forma, quindi la percezione del prodotto, ma anche la sua destinazione d'uso. Succede che un tavolo diventa una consolle, una sedia si ripiega e "sparisce", un tavolino basso diventa un tavolo di grandi prestazioni, un porta tivù segue il tuo sguardo... benvenuti in una nuova dimensione, dove tutto è possibile.

OZZIO® ITALIA

Ozzio Italia Home is... friendly space. Space is moving... this is what could cross your mind while looking at Ozzio Italia products. The creative concept - and the reason why too - are the expression of multifunctional products that really give concrete answers to the steady lack of space, typical of contemporary living. In Ozzio items for interior design, not only the shape and the product's perception are changing, but their function changes as well. It happens for example that a table turns into a console, a folding chair simply "disappear" from your sight, a coffee-table turns into a performing versatile table, a TV-rack follows your look... Welcome to a new dimension, where everything is possible.

La Casa Ozzio Italia... è spazio amico, uno spazio mobile... viene da pensare guardando i prodotti. Il concept creativo - e la stessa reason why - esprimono prodotti polifunzionali che sanno dare risposte concrete alla cronica mancanza di spazio che caratterizza il vivere contemporaneo. Nei prodotti Ozzio per l'interior design non cambia solo la forma, quindi la percezione del prodotto, ma anche la sua destinazione d'uso. Succede che un tavolo diventa una consolle, una sedia si ripiega e "sparisce", un tavolino basso diventa un tavolo di grandi prestazioni, un porta tv segue il tuo sguardo... benvenuti in una nuova dimensione, dove tutto è possibile.

Design: Studio Ozeta

La forma tonda del piano suggerisce un'idea paritetica tra i commensali. I settori laterali rientrano sottopiano per ridurre l'ingombro sia ad uso tavolino che nella versione trasformata in tavolo.

The round shape gives an idea of equal importance of space among the guests. The side wings can be folded under the top to reduce volume of the table in both positions: either table or couch-table.

MOVE YOUR SPACE®

CONTEMPORARY HOME

La Casa Ozzio Italia... è spazio amico, uno spazio mobile... viene da pensare guardando i prodotti. Il concept creativo - e la stessa reason why - esprimono prodotti polifunzionali che sanno dare risposte concrete alla cronica mancanza di spazio che caratterizza il vivere contemporaneo. Nei prodotti Ozzio per l'interior design non cambia solo la forma, quindi la percezione del prodotto, ma anche la sua destinazione d'uso. Succede che un tavolo diventa una consolle, una sedia si ripiega e "sparisce", un tavolino basso diventa un tavolo di grandi prestazioni, un porta TV segue il tuo sguardo... benvenuti in una nuova dimensione, dove tutto è possibile.

Ozzio Italia Home is... friendly space. Space is moving... this is what could cross your mind while looking at Ozzio Italia products. The creative concept - and the reason why too - are the expression of multifunctional products that really give concrete answers to the steady lack of space, typical of contemporary living. In Ozzio items for interior design, not only the shape and the product's perception are changing, but their function changes as well. It happens for example that a table turns into a console, a folding chair simply "disappear" from your sight, a coffee-table turns into a performing versatile table, a TV-rack follows your look... Welcome to a new dimension, where everything is possible.

Undoubtedly this is one of the most interesting and representative pieces in the Ozzio Italia collection. A perfect mix of materials reinterpreted with irony in a wise game of gauges, solidity and formal lightness.

SMART LIVING

Design: Marco Pozzoli / FIMAR

Smart Living è una filosofia che è nata come risposta concreta alla cronica mancanza di spazio nel living contemporaneo. Una proposta d'arredo integrata che cela al suo interno un tavolo elevabile e le relative sedie pieghevoli.

Smart Living is a new concept as concrete answer to the steady lack of space, typical of contemporary living. A complete furnishing proposal that hides a multifunctional table and its folding chairs.
